

## FREEMAN PET NAT 2018

**FREEMAN Pet Nat 2018** is the first minimal intervention natural wine in the **FREEMAN** portfolio.

### VINTAGE + WINEMAKING

The 2018 season was almost pitch-perfect – and conducive to a generous crop of late-ripening Rondinella grapes.

The fully ripe Rondinella bunches selected for this inaugural frizzante-style wine were harvested from the original Altura Vineyard and transferred to the winery within minutes for gentle basket-pressing. The free-run juice was drained and fermented naturally in small stainless steel vats courtesy of a generous and vigorous wild yeast.

The unfiltered wine was bottled (under crown seal) before the completion of fermentation (méthode ancestrale), guaranteeing a sprightly light effervescence. Being cautious we only made 500 bottles on this first occasion.

### TASTING NOTE

**FREEMAN PET NAT 2018** is a seductive natural sparkling wine. A rose gold hue it opens with honeysuckle, ginger and brioche notes, then steps up to a creamy, savoury and mellow mid-palate with a lingering whimsical effervescence. Unadulterated and super-sippable!
